LANGUAGE

English Japanese (N5)

Wai Linn Aung

Frontend Developer

Experienced frontend web developer adept at crafting visually captivating user interfaces and delivering seamless online experiences with a deep understanding of modern web technologies

WORK EXPERIENCE

Junior Frontend Developer

MAR 2023 - JUN 2023

Forward Society

This project was developed collaboratively with a team, and I gained valuable experience in teamwork. For the frontend, we used React, Tailwind CSS, and Mantine UI.

Workshop

MAY 2023 - AUG 2023

MMSIT

Throughout the project, I faced various challenges and gained a lot of knowledge. Together with my team, we developed real-world projects such as a hotel website, a contact web application (similar to Google Contacts), and a personal portfolio site.

Freelance Project

SEP 2023 - JAN 2024

Opaque Industries

Worked on Music and Sports News sites, a Dashboard, and a Ticketing site for a music show. With no dedicated designer, I handled both UI design and development, and effectively communicated with clients on design and workflow.

Senior Level Frontend Developer

JUL 2024 - Present

ConceptX International School

Worked with Vue.js, Next.js and Firebase to develop a landing page, Learning Management System and School Management System. Mobile Development with React Native Expo from scratch to deployment in App Store and Play Store.

PROJECT I MADE

Moviezine

Built a movie site with trailers, ratings, cast, and descriptions.

EdOmnis

Free Learning Management System and School Management System for schools.

SplitFun

Web app where friend groups create or join a shared room to hang out, play decider games, and split bills together.
